To whom it may concern,

Dr. Karen Friedman is the Head of the Hadassah Mount Scopus Mind-Body Fertility Center, the Rimon Center. The Center, housed at Hadassah Mt. Scopus, aims to provide emotional, social and mind-body support to women undergoing infertility treatments in order to increase their chances of reaching motherhood. The Hadassah Mind-Body Fertility Center is of great benefit to IVF patients. Tens of women participate weekly in varied activities such as Mind-Body Workshops, Yoga Workshops and individual Cognitive Behavioral Therapy.

We believe that women choose to come to Hadassah for treatment not only because it is on the cutting edge of medicine, especially in the field of IVF, but because the Center offers a woman a holistic approach to this very sensitive issue. We at the Hadassah Mind-Body Center offer women the emotional support they are entitled to during this challenging time.

All services are provided free of charge. Therefore we will greatly appreciate your willingness to partner with us and your consideration to support this critical project.

Sincerely yours,

*Osnat Levtzion - Korach*
